Presented by The National Council on Independent Living

> A MESSAGE FROM THE EXECUTIVE DIRECTOR

Dear Advocates,

Since the passage of the Americans with Disabilities Act (ADA) almost 25 years ago, an entire generation of young advocates with disabilities has grown up - the ADA Generation. These advocates are here; ready to be included and supported to lead.

The National Council on Independent Living is the longest-running national disability organization working across lines of age and disability. If our success is to continue, we must look towards the future and build authentic and lasting participation and leadership of young advocates in NCIL and throughout the Independent Living and Disability Rights Movements.

We will come together in Washington this summer to honor our past and catalyze our future as we learn from each other, foster new leadership, cultivate cross-generational connections, and secure our Movement's growth

I hope you will join us this July as we celebrate the 25th anniversary of the ADA, lift-up the next generation of disability-rights leaders, and do the work that will bring our Movement to its full potential: a united people who will create a world in which people with disabilities are valued equally and participate fully.

Sex, Drugs and Rock N' Roll: The Sequel

Youth Track

Presented by: Roger Frischenmeyer

Sex has always been a taboo topic when it comes to people with disabilities. The rate of drug use among people with disabilities is significantly higher than the rate for those without disabilities. People with disabilities are significantly more isolated than people who do not have disabilities. If these topics are not addressed, this will never change. At the APRIL 2014 Conference, Sex, Drugs and Rock N' Roll took a first step in beginning this discussion. Join us for the Sequel, which will be even better than the first presentation, so that we can learn together how to teach people with disabilities about these important topics. After the Conference, the discussion can continue in the SDR Facebook group. *Target Audience: All Audiences. Knowledge Level: Newcomer.*

How to Address a Priority Issue from Your Statewide Needs Assessment When Your SPIL Lacks Resources

SILC Track

Presented by: Brad Williams

Your statewide needs assessment reveals that the employment rate is 31.2% and the poverty rate is 28.6% for people with disabilities. The State has approximately \$1.1 million dollars in Part B resources available on an annual basis. Is the overwhelming nature of this priority need beyond the scope, responsibility and control of your SPIL? Learn how the New York SILC and IL network addressed this priority need and successfully encouraged Governor Cuomo to issue Executive Order # 136, a cross-disability Employment First initiative with the goal to increase employment and decrease poverty for New Yorkers with disabilities by 5%. *Target Audience and Knowledge Level: Appropriate for all Audiences.*

Workshop participants will learn how people with disabilities are utilizing supported and customized employment strategies to engage in integrated, competitive employment, concluding with an interactive discussion of Section 14(c) and how we can responsibly phase it out. *Target Audience and Knowledge Level: Appropriate for all Audiences.*

International Youth Seminar on Independent Living

Youth Track

Presented by: Shoji Nakanishi; Judith Heumann

Japanese youth delegation, along with several youth leaders from Asia and Africa, will join in celebration of the ADA 25th Anniversary by creating an opportunity to bring emerging IL leaders together. There is a great need and demand for Japan and other countries to learn how to implement effectively their national legislation and CRPD. The current movement, especially youth with disabilities - including young women with disabilities - can benefit by learning from the experience of the ADA, both before and after implementation, and the work done by civil society and government. In turn, US Youth can learn about how the IL Movement has spread worldwide and explore ideas on how the new generation can cooperate internationally. Critical Role of CILs in the Implementation of WIOA

General Track

Presented by: LEAD Center

The Workforce Innovation and Opportunity Act (WIOA) represents new opportunities for Centers for

Independent Living (CILs) to support Workforce Investment Boards (WIBs) and American Job Centers (AJCs) as they move forward to a fully accessible, seamless employment delivery system. At the state and local levels, WIBs must engage in a unified strategic planning process that will enhance their focus on cross system collaboration in an effort to identify the needs and resources necessary to meet the diverse needs of today's workplace. CILs can and should be a part of this process. Partnerships between the WIBs, AJCs, and CILs reinforce the inclusion of persons with disabilities at all levels. This session will help you understand WIOA from a disability perspective and how your fellow CILs are influencing positive change.

Target Audience and Knowledge Level: Appropriate for all Audiences.

Addressing Structural Racism and Inequity

General Track

Presented by: Stanley Holbrook

The treatment of people with disabilities by law enforcement and state and municipal officials is a serious problem. We have allowed problems of marginalization, exclusion, inaccessibility, discrimination, sexism and bigotry - problems that affect us all - to instead be addressed by a few, and have been content to say that it is a disability problem, or a race problem, or gender problem, or sexuality problem rather than admit that it is a problem for all of us. The purpose of this session is to institute a model of "engagement" to begin asking how the problems we see in minority and disabled communities are at least in part linked to the dehumanization that people can feel when they find themselves marginalized because of either the color of their skin or their disability. *Target Audience and Knowledge Level: Appropriate for all Audiences.*

Being an Advocate in Next Generation ADA

Youth Track

Presented by: Meredith Raymond

The ADA became law 25 years ago... what's next? Youth with disabilities have grown up with protections not known by past generations; however, we have new and ever changing challenges that we continue to face. In this session we will discuss what it means to be part of the ADA generation, what challenges we face, and how to be an advocate in a way that suits you. Participants will put together an action plan to map out their goals on how to contribute to the disability rights movement. It's our responsibility now to step up and become the next generation of leaders! *Target Audience and Knowledge Level: Appropriate for all Audiences.*

Parking Equity: Encouraging Reservation of Spaces with Access Aisles for Lift-Van Users

General Track

Presented by: Glen White

This presentation focuses on a newly emerged issue of accessible parking, ramp or lift equipped van (RLEV) users having difficulty finding accessible parking spaces because of van accessible parking spaces being used by non-ramp or lift equipped vehicles (NRLEV). The presenters will present a project including a focus group of RLEV users to illustrate how this issue affects their ability to enjoy independent living, a brief interview of NRLEV users to show their view of using van accessible spaces, and a comparison of using different signs to discourage NRLEV drivers from parking in van accessible spaces. The presenters will facilitate a discussion on this topic, with the goal of examining policy options that might address it. *Target Audience and Knowledge Level: Appropriate for all Audiences.*

Thursday, July 30, 10:30 a.m. - 11:45 a.m.

Election 2016: Increasing the Disability Vote for Impact

General Track

Presented by: Ted Jackson

The goal of this workshop is to lay the ground work for building a more recognized and significant disability voting bloc – resulting in more political power for the disability community. And a successful get-out-the-vote (GOTV) plan always begins with planning a year in advance, establishing workable staff priorities and leadership roles. Non-profit organization partners will become familiar with the concepts and parameters to follow that will allow them to engage voters and remain compliant to election law and funding regulations. They will learn about the stages and division of labor within an organization that is needed to build a realistic and sustainable voting effort, tailored to their community and resources. Everyone will have the opportunity to evaluate their voting priorities, engage with seasoned election professionals, join a national disability vote collaborative and leave with materials to get started on building a 2016 GOTV plan. At the end participants will be asked to join a national disability vote collaborative that will meet monthly by teleconference to share resources, network and collaborate on strategies. *Target Audience and Knowledge Level: Appropriate for all Audiences.*

> #ADAYOUTHPLEDGE

#GenerationADA is the cohort of youth age 25 and under who grew up after the ADA was passed. In honor of the ADA 25th Anniversary, the 2015 NCIL Conference is committed to engaging and supporting #GenerationADA. With our movement's collective dedication to the next generation of leaders, we ask CILs, SILCs, and other organizations attending NCIL 2015 to take this pledge and to bring at least one #GenerationADA young leader to the Conference. Taking the #ADAYouthPledge acknowledges your dedication and concerted efforts in bringing youth to the NCIL 2015 Conference. Learn more at ncil.org/adayouthpledge.
