REVOLUTION
A GLOBAL INDEPENDENT LIVING MOVEMENT
Annual Conference on Independent Living 2017

CONFEREECE GUIDE
JULY 24-27, 2017
GRAND HYATT
WASHINGTON, DC

Presented by the National Council on Independent Living
A Message from the Executive Director

Dear Advocates and Friends,

In the wake of a new Administration and troubling changes to services for people with disabilities in our country, it may be tempting to turn our focus inwards at this time. Instead, we are expanding our vision to celebrate the strides being made in the Independent Living Movement around the world. We unite with our friends both nationally and internationally to present our 2017 Annual Conference on Independent Living: Revolution – A Global Independent Living Movement.

Independent Living is not just an American issue. Globally, there are over one billion people with disabilities, comprising one fifth of the world’s population, according to the World Report on Disability. We must continue to advocate so that people with disabilities can live wherever and however they choose.

Now is the time to join forces with our international allies as we push back against the rising tide of discrimination and bigotry that confronts people with disabilities every day. We will come together this summer to proclaim that we will not be silenced. Independence may have sparked our fire, but it is interdependence that will keep it burning.

I hope you will join us this July as we do the work that will bring our Movement to its full potential: a united people who will create a world in which people with disabilities are valued equally and participate fully.

#ADAYouthPledge

Due to a variety of barriers, most especially cost, youth with disabilities have been unable to fully participate in the national disability community. We are asking that your organization takes the #ADAYouthPledge through one of three ways:

- Pledge to financially sponsor 2 young people in your local area to attend the NCIL conference.
- Pledge to financially sponsor 2 young professionals on your staff to attend the NCIL conference.
- Contribute towards the Youth Scholarship Fund that will bring young people from across the country to the NCIL conference. Your donation will support plane tickets, hotel accommodations, personal assistance services, and registration costs for attendees.

Visit ncil.org/youthpledge to take action! With your help, we can bring youth with disabilities to the NCIL Conference and ensure that #GenerationADA is empowered, engaged, and supported to lead. We ask that you tweet us with your pledges @youth_fellow. Thank you for your support!

Get Out of Town! IL Services in Rural Areas

- **General Track**

- Presented by: Nan Sninsky - Chief Administrative Officer, Tri-County Patriots for Independent Living (TRIPIL); Brenda Dare - Independent Living Supervisor, TRIPIL

Access to places and people can be a challenge no matter where you live, but there are exceptional challenges when you live in a “rustic” setting. Working, visiting relatives, getting groceries, seeking fitness facilities or social opportunities, and getting to / from medical appointments require more time and effort when you live miles away from a centralized hub of activity. Do you know where there are consumers in your service area who live in neighborhoods without sidewalks, store fronts, and bus service? Per Census population statistics, the U.S. is at about an 80%-20% split between urban and rural residents, respectively. Come to this session to determine if your core service delivery is inclusive of consumers in the 20% of those living outside the nation’s cities. **Target Audience:** Frontline Staff and Consumers. **Knowledge Level:** Newcomer.

Those rare youth with severe physical disabilities have overcome many hardships of prejudice, poverty, and physical barriers to succeed in changing their life and contribute to collective effort to better community. The presenter will provide her findings of factors supporting or hindering the empowerment of youth with severe disabilities in Vietnam and welcome any questions or feedback on her work. **Target Audience**

First, we will explore violence by careworkers and intimate partners against the disabled community. Then we will consider police violence as a disability issue that our community must mobilize against. Finally, we will discuss how violence is currently framed in the media - and what we can do about it. Together, as a group, we will explore program measures that can provide support to those reporting domestic violence; disability community responses to police violence; and media interventions. **Target Audience and Knowledge Level:** Appropriate for all audiences and knowledge levels.

HAIL: Empowering CIL Consumers to Manage Their Health

- **Healthcare & LTSS Track**
- **Presented by:** Dot Nary - Assistant Research Professor, Research and Training Center on Independent Living, University of Kansas; Audrey Schremmer - Executive Director, Three Rivers, Inc.

As baby boomers age, we are becoming more and more aware that good health is important to independent living! This workshop will describe an evidence-based program, Health Access to Independent Living (HAIL), which was developed with consultation with CILs, to assist CIL direct service staff to more easily empower consumers to manage their health. Currently focused on those with mobility impairments but useful to those with other disabilities, HAIL features a) a health resource database, b) fact sheets on the secondary health conditions of pain, fatigue, and depression, c) fact sheets on six health-related consumer skills, and d) a simple process to set and
track health-related goals of the consumer's choice (e.g., beginning or increasing exercise, cutting back on pop, making the most of medical appointments.) Presenters will provide results from trials at two CILs, demonstrate the database, provide copies of the fact sheets, and solicit feedback on this program that is still in development. **Target Audience and Knowledge Level: Appropriate for all audiences and knowledge levels.**

**Building Sexy Relationships: Activities to Get it Done**

- **Youth Track**

- Presented by: Rachel Kaplan - Diabetes Prevention Coordinator, Diabetes Advisory Council of South Carolina; Sierra Royster - Youth Programs Coordinator, Association for Programs on Rural Independent Living (APRIL); Dustin Gibson - NCIL Board Member, Community Builder, APRIL Youth Peer to Peer Mentor

  "Ask the young. They know everything." - Joseph Joubert

This Youth Track Workshop places focus on young adults with various disabilities and how we, as professionals within the IL Movement, can assist them in honing their communication skills, self-awareness, and individuality to make decisions that impact their personal relationships. We will discuss the benefits of having a peer mentoring to assist a CIL in a program that could include taboo topics that young people need. Some of APRIL's Peer-to-Peer Mentors will facilitate an interactive workshop session based on an updated sexuality curriculum that utilizes hands-on skill building activities to assist other professionals on what "most used practices" work when discussing dating, relationships, sexuality, and decision-making according to young adults themselves. **Target Audience: Frontline Staff and Consumers. Knowledge Level: Appropriate for all knowledge levels.**

**Access, Accommodations, & Resources**

**Environmental / Chemical Sensitivities**

Fragrance and chemicals can be access barriers. To help make this Conference accessible to participants for whom chemicals or fragrances are an access barrier, NCIL requests that you come fragrance free. Please refrain from wearing any scented products or washing with them. This includes clothing that has been laundered with fragranced detergent or fabric softening products. Additionally, please completely air out any dry-cleaned clothing before wearing it to the Conference.

Smoke can also be an access barrier. It is essential that we maintain a smoke-free environment. If you smoke, please use the designated smoking area located outside the Hyatt. Please refrain from smoking near any other doorways or paths of travel. The hotel entrance at 11st Street should be the least polluted with cigarette smoke and vehicle exhaust, although it unfortunately has steps.

**Van Parking**

The maximum vehicle height for the garage at the Grand Hyatt is 6' 5". Grand Hyatt valet staff will park taller vehicles at the Renaissance Washington as space allows. This arrangement will be made available on a first-come, first-served basis and billed at the Grand Hyatt regular self-parking rate of $32 / night.
Quiet Room / Sensory Retreat

The McPherson room will be available throughout the conference as a quiet room / sensory retreat. This room is reserved for individuals that need a break from overstimulation and / or the large group environment of the Conference. Please help us maintain this accommodation. Please do not use this space to hold conversations or meetings.
